Welcome to Hemknoll

"Home of Fine Hems Since 1931"

Nowhere but in a large country like ours will you find the varying growing conditions that exist each year, however last year seemed to be one of great extremes. In my travels (more in one year than they have had in five or six) while the midwest had enough rain fall with a good season while in the southwest they had more rain than they wanted (more in one year than they have had in five or six) while the midwest had enough rain except for one flash flood. The gardens in Tulsa where the national daylily meeting was held were in wonderful condition. Here in the east we had severe drought conditions that discouraged much gardening, however we irrigated heavily during this spell and had a fine growing season. Even where no watering was done the daylily was one plant that gave a good account of itself and again proved it can take it.

Last year I listed many of the new varieties that we were growing, some for the first time, and it created some misunderstanding so I shall only say that this year we have many of the very new better daylilies growing here for testing and viewing. It should prove an interesting season.

As usual we are listing some of the perennials that we grow particularly those that combine well with Daylilies in the garden. This years additions are the two fine lavender thalictiums, Lavender Mist and Thundercloud; a most excitingly colored phlox that is like nothing I have ever seen, Peach Glow; also three new Daylilies that we have tested a number of years and think very fine additions. Write us if you are looking for varieties not listed as we do grow many more than the limited space in the catalog permits.

We sincerely wish to thank our many customers for the chance given us to serve them in past years and particularly for the many nice letters about the quality and condition of their plants upon arrival. These fine comments are most gratifying and we expect to continue warranting them in 1958.

CULTURE—Daylilies are among the very hardiest and easily grown of all perennials. They will grow in most any type of soil, however it is best to avoid low wet spots. They do best planted where they will get at least 4 hours of sunlight a day. Thorough watering at blooming time will give larger and better colored flowers. When once established they need no moving for years. Complete planting instructions will accompany each order, as well as growing hints.

SHIPPING—March 15 thru May and August 15 thru November. All plants are husky, freshly dug, labeled true to name, and carefully packed. We take pride in our quality of plants.

TERMS—Cash with order. Orders of \$4.00 or over prepaid. Add 50 cents for packing and postage on orders for less. If you add 50 cents for postage to any order over \$4.00 you may select any \$1.00 plant as an extra.

PREMIUMS—Orders for \$10.00 to \$25.00 select 15%, over \$25.00 select 20%, in **EXTRA PLANTS**. Or we will send you something extra that we hope you will enjoy. *No discounts* on collections or items marked net. You will like our husky plants.

LEGEND: E—Denotes early bloom; M—Midseason bloom; L—Late bloom. Height in inches. Number preceeding variety indicates position in 100 Most Popular as selected by members of the American Hemerocallis Society in 1957 Popularity Poll.

WELCOME—For those of you who can, we welcome your visit during July and August—the height of our season. Here you can see over 500 varieties in bloom as well as many of our own seedlings. We are located on Reynolds Avenue in Troy Hills, about halfway between New Jersey Highways 10 and 46. Best to phone first. TUCKER 7-2710.

- AMBER FLAME (Stevens '56) ML 40" Huge triangular buff apricot self. Net. 5.00
- CENTURION (Stevens '56) ML 40" #62-45. A lush, fast growing, warm glowing red between Napal Red and Brazil Red with as many as five blooms out at a time on very well branched scapes. The medium sized blooms are broad and widespread. Junior Citation '55. Semi-ev. (*Picture on Page 12*). Net. 10.00
- CONFIDENCE (Baker '46) M 34" Very broad vivid salmon peach flowers with greenish throat. Late in the day fades to a smooth pink. Wonderful grower and parent of Hearts Content. Dor. (*Picture on Page 9*) 10.00
- KEY LARGO (Baker '55) L 32" Full, widespread 5" light cream good for prolonging season. Semi-ev. (*Picture on Page 12*) 7.50
- LIME RIPPLE (Baker '57) M-ML 38" Ruffled, fragrant, sun-proof yellow. This one stays open late in the evening and has that greenish yellow coloring so useful and cool looking in the garden. Full, widespread blooms of good size. (*Picture on Page 6*) 12.50
- MISTY GOLD** (Baker '58) M 34" (Mission Bells X Sdlg of yellow and pink parentage). This fragrant, broad petaled, soft, pale misty yellow has been admired by at least six judges. The slightly reflexed petals have a slight creping, wonderful substance and extra fine branching. Dor. (*See Cover*) Net 15.00
- PLUM GOOD (Baker '57) EM-M 36" (Victoria X Canyon Purple) Huge blooms in a rose plum with a cream midrib and more green in its make up than I have ever seen in daylilies. By night the sepals still have very green tips and backs although the throat has lost much of its green. Full slightly recurved petals are 2" wide. One of the few dark ones having fragrance. Good branching, repeats, proliferates, and is semi-evergreen. 12.50
- REVELATION (Baker '55) M 30" (Orange Sdlg. X Samarkand) Huge absolutely sunfast, broad, widespread blooms of rich cinnamon. Remains open late. Semi-ev. (*Picture on Page 2*) 8.00
- SIBONEY (Stevens-Baker) M-ML 34" #140-45C. Medium sized rich peach colored blooms can be spotted across the garden. Very prolific. Throat greenish yellow with small inverted rose V. Fine for landscaping. Dor. 5.00

TEMPLE ORANGE

REVELATION

97. **SPLENDOR** (Stevens '55) ML 34" This exciting large, widespread, sunfast crimson with 6" blooms is, day in and day out, just about the best in the crimson class. As it nears the small green throat the rich coloring deepens. Dor. J. C. '54. H. M. '55. Net. 17.00

TEMPLE ORANGE (Baker '58) ML 30" [(Triumph X Glowing Gold) X Naranja]. Large, broad petaled, flaring, intense orange that has also proven a good performer in southern gardens. An absolute self with color running down into a tiny green tinted throat. (*Pictured above*). Net. 10.00

TINKER BELL (Stevens '55) EM 28" A novel, well branched twice blooming tiny orange that will open 5 tiny bells at once. Dor. Net. 4.00

TROY HILLS (Baker '56) EE 24" Pertly ruffled, sunfast, medium sized blooms with stippled maroon zone. Good landscaper. 4.00

TUDOR ROSE (Stevens '54) M 30" Wide, medium sized rose to silvery pink with a yellow green throat. Dependable bloomer. Dor. Net. 7.00

TWENTIETH CENTURY (Stevens '57) M 44" A wonderful branched, sun-resistant English Red bloom with a slight Brazil Red halo. The 25-30 tough and leathery 6" blooms last over a long period. Dor. Junior Citation. Net. 15.00

ZENDA (Stevens '58) M 36" (Petra X) #55-44. A fine new addition to the bicolor class. Extremely bright, broad red petals with light yellow sepals. Well branched. Net. 10.00

AFTERGLOW (Stout) ML 36" A lovely blend of luminous peach pink and buff. The marvelous color of a freshly cut melon. 1.00

ALICE (Bach) M 42" Very large, heavily ruffled, light cream with the green throat running up into this exciting flower. 2.50

ANGELUS (Wheeler) M 36" Delicate sulfur yellow self. Open flower. 1.00

HELLEBORUS NIGER
(Picture taken December 25, 1957)

HELLEBORUS NIGER (Christmas Rose) 8"-12". Really a most satisfactory plant if given a little extra care. Select partially shaded, protected spot with good drainage. Work in *liberal amounts* of well rooted leaf mold and a hand-full of bone meal and plant or transplant during *September (Plants shipped at that time)*. During the summer months water (soak) when dry. Keep a mulch of peat moss or leaf mold about the plants at all times. In late fall cover with straw or some light cover and during warm spells in mid-winter the greenish white wax-like blooms will make nice picking as they last 10 to 14 days cut in the house. **1.25 each**

"The plants of TINKER BELL arrived in excellent condition and I do appreciate your sending such strong generous divisions." — Ga.

"Once again, I want to let you know how pleased I am with the order just received from you. They arrived in fine condition; I was more than satisfied with the one substitution you made and am most enthusiastic with the generous bonus plant." — Conn.

"They are real nice, looked as though you had just handed them over the garden wall." — S. Car.

"The Hems came yesterday looking fresh and lively." — Idaho.

"Revelation has attracted everyone who has come on the place. It has bloomed almost constantly for six weeks or thereabouts. Such big, open heavy colorful flowerets. I like it myself awfully well." — Cal.

"Revelation blooms on and on; no let down of color or quality." — Cal.
